

AREAS TO IMPROVE

- ▶ Reusability

- ▶ A new environment would be copy & paste, but it would be A LOT of updates.
 - ▶ Every resource name, environment, etc.
- ▶ This can introduce human errors.

VARIABLES

aws terraform example

vars.tf x

48 references

```
1 variable "environment" {  
2   default = "demo2"  
3 }  
4
```

3 references

```
5 variable "vpc_cidr" {  
6   default = "10.150.4.0/22"  
7 }  
8
```
