

## SEPARATION OF CONCERNS – VPC

0 references

```
provider "aws" {  
  profile = "aws-meetup"  
}
```

0 references

```
module "vpc" {  
  source          = "../../../../../modules/vpc"  
  environment     = "${var.environment}"  
  vpc_cidr_block  = "${var.vpc_cidr}"  
  availability_zones = "${var.availability_zones}"  
  subnet_count    = 2  
}
```

## SEPARATION OF CONCERNS – WEB APP

- ▶ Responsibilities:
  - ▶ Load Balancer
  - ▶ EC2 Instances
  - ▶ Add LB → EC2 Targets
- ▶ Requires information about the VPC
