SEPARATION OF CONCERNS – VPC

```
0 references
provider "aws" {
  profile = "aws-meetup"
}

0 references
module "vpc" {
  source             = "../../../modules/vpc"
  environment        = "${var.environment}"
  vpc_cidr_block     = "${var.vpc_cidr}"
  availability_zones = "${var.availability_zones}"
  subnet_count       = 2
}
```

SEPARATION OF CONCERNS – WEB APP

▸ Responsibilities:

  ▸ Load Balancer

  ▸ EC2 Instances

  ▸ Add LB –> EC2 Targets

▸ Requires information about the VPC
